

Moths of North America North of Mexico, Supplemental literature: 1

J. C. E. Riotte

Department of Entomology, Bishop Museum, P. O. Box 19000-A, Honolulu, HI 96819

The Journal of Research on the Lepidoptera herein initiates a project to continually update the Moths of North America North of Mexico (MONA) by citing all relevant papers published subsequent to each fascicle produced. We feel the service will maintain the value of MONA and urge all readers to submit citations to Riotte for incorporation into the periodic bibliographies we will publish.

Fascicle 6.2, Gelechioidea - Oecophoridae

- Hodges, R. W. Oecophoridae from West Texas. *J. Lep. Soc.* 29: 89-94 (1975).
Heppner, J. B. *Mathildana newmanella* (Oecophoridae) in Arkansas. *J. Lep. Soc.* 30: 18 (1976).

Fascicle 13, Pyraloidea

- Munroe, E. Additional material of *Scoparia huachucalis* Munroe, with description of male genitalia (Pyralidae, Scopariinae). *J. Lep. Soc.* 31: 63-66 (1977).
Fiance, S. B. & R. E. Moeller. Immature stages and ecological observations of *Eoparargyactis plevie* (Pyralidae: Nymphulinae). *J. Lep. Soc.* 31: 81-88 (1977).
McFarland, N. Larval foodplant records for 106 species of North American moths. *J. Lep. Soc.* 29: 112-125 (1975). Includes some Pyralidae.
Kendall, R. O. Larval foodplants and life history notes for eight moths from Texas and Mexico. *J. Lep. Soc.* 30: 264-271 (1976). Pyralidae and Sphingidae.
Munroe, E. A new genus and species of Odontiinae from Arkansas (Lepidoptera: Pyralidae). *Can. Ent.* 105: 669-671 (1973).
Munroe, E. A new *Nocteulopsis* from Texas (Lepidoptera: Pyralidae: Odontiinae). *Can. Ent.* 106: 655-658 (1974).
Heppner, J. B. Synopsis of the genus *Parargyactis* (Lepidoptera: Pyralidae: Nymphulinae) in Florida. *The Florida Entomologist* 59: 5-19 (1976).
Munroe, E. Additional Material of *Scoparia huachucalis* Munroe, with description of male genitalia (Pyralidae, Scopariinae). *J. Lep. Soc.* 31: 63-66 (1977).
Munroe, E. A new species related to the garden webworm, with a key to American members of the genus *Achyra* Guenee (Lepidoptera: Pyralidae: Pyraustinae). *Can. Ent.* 110: 499-505 (1978).
McCafferty, W. P. & M. C. Minno. The aquatic and semiaquatic Lepidoptera of Indiana and adjacent areas. *The Great Lakes Ent.* 12: 179-187 (1979).

Fascicle 20.1, Mimallonoidea and Bombycoidea (excl. Saturniidae)

- McFarland, N. Larval foodplant records for 106 species of North American moths. *J. Lep. Soc.* 29: 112-125 (1975). Includes some Lasiocampidae.
- Lajonquiere, Yes de. Revision du Genre *Phyllodesma* Huebner - II(e) Partie - Especies nearctiques (suite) - Correction et Adjunction. *Bull. de la Soc. entomol. de France*, Tome 81, mars-avril, 108-112 (1976).

Fascicle 20.2A, Bombycoidea - Saturniidae (Part)

- McFarland, N. Notes on three species of *Hemileuca* (Saturniidae) from eastern Oregon and California. *J. Lep. Soc.* 28: 136-141 (1974).
- Smith, Capt. M. J. Life history notes on some *Hemileuca* species (Saturniidae). *J. Lep. Soc.* 28: 142-145 (1974).
- Dominick, R. B. *Amphion nessus* (Sphingidae) attracted to female *Anisota virginiensis pellucida* (Citheroniidae). *J. Lep. Soc.* 28: 176 (1974).
- Leeuw, I. A further note on the acceptability of an alternate foodplant for *Hemileuca maia* (Drury) (Saturniidae). *J. Lep. Soc.* 28: 301 (1974).
- Worth, C. B., T. F. Williams, A. P. Platt & B. P. Bradley. Differential growth among larvae of *Citheronia regalis* (Saturniidae) on three genera of foodplants. *J. Lep. Soc.* 33: 162-166 (1979).
- Worth, C. B. Doubly overwintering *Citheronia regalis* Fabricius (Lepidoptera: Saturniidae). *J. Lep. Soc.* 33: 166 (1979).
- Tuskes, P. M. A new species of *Hemileuca* from the southwestern United States (Saturniidae). *J. Lep. Soc.* 32: 97-102 (1978).

Fascicle 20.2B, Bombydoidea - Saturniidae (Part)

- Collins, M. M. Notes on the taxonomic status of *Hyalophora columbia* (Saturniidae). *J. Lep. Soc.* 27: 225-235 (1973).
- Tuskes, P. M. The distribution and larval foodplant relationships of *Saturnia walterorum* (Saturniidae). *J. Lep. Soc.* 28: 172-174 (1974).
- Scarborough, A. G., G. P. Waldbauer & J. G. Sternburg. Feeding and survival of *Cecropia* (Saturniidae) larvae on various plant species. *J. Lep. Soc.* 28: 212-219 (1974).
- Peigler, R. The geographical distribution of *Callosamia securifera* (Saturniidae). *J. Lep. Soc.* 29: 188-191 (1975).
- Orsak, L. J. The type locality of *Saturnia walterorum* (Saturniidae). *J. Lep. Soc.* 29: 191 (1975).
- Koehalmi, L. & P. Moens. Evidence for the existence of an intergrade population between *Hyalophora gloveri nokomis* and *H. columbia* in northwestern Ontario (Lepidoptera: Saturniidae). *Can. Ent.* 107: 793-799 (1975).
- McFarland, N. Larval foodplant records for 106 species of North American moths. *J. Lep. Soc.* 29: 112-125 (1975). Among other 4 Saturniidae.
- Miller, T. A. & W. J. Cooper. Portable outdoor cages for mating female giant silk-worm moths (Saturniidae). *J. Lep. Soc.* 30: 95-104 (1976).
- Miller, T. A. Observations of *Eupackardia calleta* in Southern Texas (Saturniidae). *J. Lep. Soc.* 30: 127-130 (1976).
- Peigler, R. S. Observations on host plant relationships and larval nutrition in *Callosamia* (Saturniidae). *J. Lep. Soc.* 30: 184-187 (1976).

- Prentiss, J. B. Time variations of pupal stage of *Eupackardia calleta* (Saturniidae). J. Lep. Soc. 30: 187 (1976).
- Tuskes, P. M. A key to the last instar larvae of west coast Saturniidae. J. Lep. Soc. 30: 272-276 (1976). Includes one species of *Sphingicampa* (fasc. 20.2A).
- Scarborough, A. G., J. G. Sternburg & G. P. Waldbauer. Selection of the cocoon spinning site by the larvae of *Hyalophora cecropia* (Saturniidae). J. Lep. Soc. 31: 153-166 (1977).
- Gillaspy, J. E. *Antheraea polyphemus* (Saturniidae) and *Biblis hyperia* (Nymphalidae) in Texas. J. Lep. Soc. 31: 166 (1977).
- Preston, W. B. & W. B. McKillop. A melanistic specimen of *Antheraea polyphemus polyphemus* (Saturniidae). J. Lep. Soc. 33: 147-148 (1979).
- Toliver, M. E., J. G. Sternburg & G. P. Waldbauer. Daily flight periods of male *Callosamia promethea* (Saturniidae). J. Lep. Soc. 33: 232-238 (1979).
- Peigler, R. S. Collecting cocoons of *Callosamia securifera* (Saturniidae). J. Lep. Soc. 30: 111-113 (1976).
- Peigler, R. S. Wing color variation in *Callosamia* (Saturniidae). J. Lep. Soc. 30: 114-115 (1976).
- Peigler, R. S. Hybridization of *Callosamia* (Saturniidae). J. Lep. Soc. 31: 23-34 (1977).
- Peigler, R. S. Parasitism of *Callosamia* (Lepidoptera: Saturniidae). J. Georgia Ent. Soc. 12: 111-114 (1977).
- Peigler, R. S. Hybrids between *Callosamia* and *Samia* (Saturniidae). J. Lep. Soc. 32: 191-197 (1978).

Fascicle 21, Sphingoidea

- Dominick, R. B. Some notes on the Sphingidae. J. Lep. Soc. 26: 234 (1972). This note gave the idea for MONA follow-up.
- Howe, W. H. The mature larva of *Sphinx vashti* (Sphingidae). J. Lep. Soc. 26: 247-248 (1972). First larval photo.
- Franklin, C. M. New distribution records for *Ceratonia hageni* (Sphingidae). J. Lep. Soc. 26: 198 (1972).
- Dominick, R. B. Life history of *Isoparce cupressi* (Sphingidae). J. Lep. Soc. 27: 1-8 (1973).
- Blanchard, A. Record and illustration of some interesting moths flying in Texas (Sphingidae,...). J. Lep. Soc. 27: 103-109 (1973). Addition: *Amplifyterus donysa* (Druce).
- Beutelspacher, C. R. New Mexican Sphingidae records. J. Lep. Soc. 27: 303-304 (1973).
- Dominick, R. B. A further field note on *Isoparce cupressi* (Sphingidae). J. Lep. Soc. 28: 157 (1974).
- Dominick, R. B. *Amphion nessus* (Sphingidae) attracted to female *Anisota virginianensis pellucida* (Citheroniidae). J. Lep. Soc. 28: 176 (1974).
- Lloyd, J. E. Genital Stridulation in *Psilogramma menephron* (Sphingidae). J. Lep. Soc. 28: 349-351 (1974).
- McFarland, N. Larval foodplant records for 106 species of North American moths. J. Lep. Soc. 29: 112-125 (1975). Includes 1 sphingid.
- Rickard, M. A. Life history notes on three Texas Sphingidae. J. Lep. Soc. 29: 167 (1975).

- Brown, C. H. A survey of the Sphingidae of Sanibel Island, Florida. *J. Lep. Soc.* 30: 230-233 (1976).
- Kendall, R. O. Larval foodplants and life history notes for eight moths from Texas and Mexico. *J. Lep. Soc.* 30: 264-271 (1976). Pyralidae and Sphingidae.
- Tuttle, J. P. *Cocytius duponchel* (Sphingidae): Second United States capture. *J. Lep. Soc.* 31: 34 (1977).
- Williams, B. D. Life history observations on *Hemaris gracilis* (Sphingidae). *J. Lep. Soc.* 33: 254-257 (1979).
- Riotte, J. C. E. A review of the North American hawk moth genus *Lapara* (Lepidoptera: Sphingidae). *Life Sci. Contr.* 79, R. Ont. Mus., p. 40 (1972).
- Riotte, J. C. E. *Sphinx poecila* - a valid North American hawkmoth species (Lepidoptera: Sphingidae). *The Great Lakes Ent.* 13: 115-130 (1980).

Fascicle 22.2, Noctuoidea - Lymantriidae

- Neil, K. A new subspecies of *Orgyia leucostigma* (Lymantriidae) from Sable Island, Nova Scotia. *J. Lep. Soc.* 33: 245-247 (1979).

Acknowledgments

The implementation of the referee system, starting with Volume 17, has been an outstanding success in assuring publication of the highest quality papers. At this point all holdover papers from pre-referee time have been used, including a few brief taxonomic papers by recognized authorities which we felt did not require review.

Referees we wish to thank are:

Ray White	Tom Emmel
Frances Chew	Michael Collins
Art Shapiro	Ichiro Nakamura
Jerry Powell	Paul Ehrlich
John Emmel	Paul Tuskes
Douglas Ferguson	Richard Hoffman
Larry Gilbert	Robert Lacy
Jon Sheppard	Peter Brussard
L. P. Grey	Ashley Morton
F. M. Brown	Pritam Singh
R. S. Peigler	John Huxley
T. O. Eichlin	Richard Vane-Wright
Fred Stehr
